Sydell Gold

25X1

The interdepartmental group met to consider the possible establishment of a CD sub-group to discuss nuclear testing issues. The group agreed that, in order to make a proper choice among the possible alternatives, it was necessary to develop further the option of a sub-group with a limited mandate to discuss CTB verification issues. The Working Group was directed to meet the following day to draw up a draft mandate or delegation instructions dealing with this option.
